

ALESSANDRO SPINELLI, LEED Green Associate

PROJECT MECHANICAL ENGINEER

Years of Experience

2

Education

Stevens Institute of Technology
M.E. Mechanical Engineering
B.E. Mechanical Engineering
Minor in Green Engineering

Certificates

E.I.T.

Professional Experience

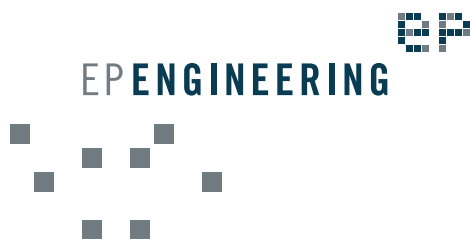

2008–Present Project Mechanical Engineer, EP Engineering, LLC

Engineering Experience and Expertise

- Engineer HVAC systems for residential and commercial buildings in excess of \$200,000
- Design water side HVAC systems for both heating and cooling in new and existing construction
- Size restaurant kitchen exhaust systems for Perfect Pint Bar & Restaurant in New York
- Manage projects in construction such as Queens Library-Broadway branch
- Perform energy analysis on buildings to find energy saving areas
- Write scope of work and energy assessment reports
- Implement energy recovery systems for commercial buildings
- Coordinate construction documents between MEP trades
- Review contractor submitted shop drawings
- Inspect finished jobs for conformity with engineered drawings
- Compute heat load calculations on both new and existing buildings

Featured Project Experience
