

# CHRIS BURGESS

## PROJECT MECHANICAL ENGINEER

### Years of Experience

2

### Education

Stevens Institute of Technology  
B.E. Mechanical Engineering

### Professional Experience

2008–Present      Project Mechanical Engineer, EP Engineering, LLC.

### Engineering Experience and Expertise

- Design chiller plants using geothermal and condenser water.
- Design condenser water plants using cooling towers and dry coolers.
- Design heating plants using high efficiency boilers and utility steam to hot water systems.
- Design various types of cooling systems including VAV rooftop, VAV air handlers, packaged air cooled, packaged water cooled systems.
- Design of HVAC distribution systems for restaurants, libraries, residential buildings, offices, schools, data centers, trading floors, retail spaces, and hospitals.
- Design of kitchen exhaust and makeup air systems.

### Featured Project Experience

Otarian Restaurant	New York, NY
Queens Public Library	Queens, NY
The Door	New York, NY
Legacy School	New York, NY
Liberty Health EMS Facility	Jersey City, NJ
City National Bank	Paterson, NJ
USS Intrepid	New York, NY
CUNY Cafeteria	Brooklyn, NY
The Perfect Pint Bar & Restaurant	New York, NY
